It is easier for a Needle to go through the Eye of a Camel than it is for a Camel to go through the Eye of a Needle, and it easier for

J. T. SHEWARD

To Draw a Crowd than it is for

"Them Other Fellars"

To Catch a Customer.

Years of Experience in the Eastern States.

Selling goods on close margins is something the average California merchant is utterly unwilling. They laugh at the pennies, but the pennies make the dollars, and everybody must have what they want them.

89 Cents for Ball's Health Corsets,

Which is a saving of 36 of those bright pennies, and it will buy 3 spools of COATS'S SPOOL COTTON. A great many of these little items go to make up a vast amount of saving at the end of the year.

Handsome Lace Curtains and Cornice Poles Free,

Another Item Worth Saving.

12 Yds. Paisley Ginghams for $1 80, and Book Worth $1 Free

All through our Hosiery Stock, and almost every item in our Underwear Stock will show a nice little saving to the prudent purchaser, while our Dress Goods Department shows wonderful savings.

NOTIONS

In California have always commanded an exorbitant profit, and there is no good reason why they should. We are cutting and slashing in Notions. Laces and Handkerchiefs, and even at our present prices they bring good profits. We are showing

Bright Handsome New Designs in Lawns,

And styles that will please you in Percales, Cambrics and Satteens. Shetland Shawls, Imported Scotch, and fine Cashmere Shawls, for light wraps, are having a splendid sale, and we now have a full and complete line of the very latest designs.

Recent Large Purchases

Please us in a position to offer the most complete stock ever seen at this season of the year. This is specially so in

Parasols, Fans, Lawns, Ginghams, White Goods, Laces

AND EMBROIDERIES.

All Reasonable and the Best Selling Articles of To-day.

Mail Orders will Receive Prompt and Careful Attention.

WHAT TO WEAR

Is a Question of

Grave Importance.

Where to buy it equally is worthy of consideration—quality of fabric, trimming, workmanship and style being essential to GOOD Clothing. All these are assured in the garments offered at THE GREAT WARDROBE for MEN'S, BOYS' and CHILDREN'S CLOTHING.

JULY BARGAINS

OFFERED BY THE

PEOPLE'S STORE

THIS WEEK.

We told you last week that we must sell goods. It is imperative for us to do so. We have to dispose of $40,000 worth of goods by the 15th of August. We never have failed in our expectations yet, for our forced prices are irresistible. Hence we cannot guarantee that the goods offered below will last the entire week. If you do not wish to be disappointed come early.

All qualities of linens sold under 12½c have been reduced to 5c. We suspect they will last until Tuesday evening.

Striped Linen de Inde, sold at 27c all season, now marked at 15c.

Lace striped "Udorahs" (white Victoria lawns) selling at 37½c, now 20c.

Flannel "Carreau de Organdie" sold at 35c, will be closed at 18c. Our case only left.

Our entire line of Summer silks that we have sold all season at 65c, tumbled down to 39c.

All-wool Nun's vellings, Nun's cloth, albatross and crepes, that commanded $1 readily, descend to 65c.

Summer dress goods worth 20c will be sold for 7½c.

Hosiery department will sell ladies full finished hose, plain and silk decked at 25c, which you have been paying 50c for.

Ladies' underwear department will lead on silk-finished balbriggan vests long and short sleeves, 50c. Never sold less than $1.

Our gloves, in silk, lisle and cotton, have almost gone out of sight. For instance, silk mitts before the Fourth 75c, are now 45c. A splendid assortment of lisle thread gloves at 25c.

Boys' percale waists 25c, worth 50c.

Window shades, with fixtures complete, 49c.

Gents' Summer merino vests 15c. They will surprise you.

Our shoe department, always the cheapest in town, says it can undersell anybody by 30 per cent. That's doing a good deal of talking; sounds wild. But when you see ladies' toe slippers marked 75c that others call a sacrifice at $1.25, and children's tipped spring heel shoes for 88c, that others ask $1.50 for, while children's Newport Ties sell at 49c, others giving them away at $1, and ladies' shoes $1.25, worth $2, that kind of gives color to the tale.

Stare at These Prices! They're a Good Eye-Opener.

PEOPLE'S STORE.

The Stutzman Improved Fruit Evaporators

Are for Sale and on Exhibition at the Storerooms of the

C. W. GIBSON COMPANY,

108, 110 and 112 North Main Street, Los Angeles, Cal.

And orchardists and farmers especially are invited to examine the machines and get Catalogues and prices. The Stutzman Evaporator is made of galvanized iron and hence is fire-proof. The Trays are wire gauze. There is nothing shoddy in its construction. It is more easily moved about than any other Evaporator in the market. This alone is of great advantage to the fruit dryer. In simplicity of construction and quality of work, and in cheapness nothing of the kind can compete with it. Made in all sizes, from stove to large factory sizes. jun26

AMERICAN FRUIT EVAPORATOR!

The most practical and reliable Fruit Evaporator made. It gives unobstructed hot air currents ABOVE and BELOW all fruit, thus insuring evenness of drying and no spoiled fruit. Beware of infringements. THE AMERICAN is pre-eminently the fruit-raisers' machine. Its sizes grade from domestic to manufacturing wants. It makes the highest quality of work with ordinary care in handling. There is no need of making anything else. Though we approve a slight use of sulphur, the AMERICAN is specially adapted for the highest grade in unbleached work. It places fresh cut fruit first in highest and dryest heat; cures cut surfaces at once and keeps them dry, thereby setting and making permanent the color, and also thereby, as in broiling steaks, securing the highest quality in product. We place our experience in evaporating at the disposal of our customers. In some cases this gratuitous service is of more value than prices paid us for evaporators. Sold by

J. T. RICHARDSON,

Dealer in Agricultural Implements, Wagons and Farm Machinery,

Fifteen to Forty

PER CENT.

Saved by Purchasing

AT FOX'S.

I desire closing out my entire stock of merchandise during this month, and in order to do so know that I must offer extraordinary inducements. After deliberating whether to sell at auction or not, I am of the opinion that the goods can be sold over the counters in the regular way much more satisfactorily to the purchaser.

At this time, when so much advertising is done by parties who have no thought of living up to what they promise through their advertisements, I know what many will say, "Well, this is only one more dodge to draw trade." To all I will say, come in and I will convince you that it is not.

I MEAN BUSINESS,

And will do just what I promise. Sale to commence at once and continue until further notice. Anything and everything will be sold at retail.

15to 40 Per Cent. Less Than Regular Prices,

Bringing the goods in many cases less than the original cost. All sales will be strictly for cash.

CONSUMPTION

And all the various diseases of the

HEAD, THROAT AND CHEST,

Including the

EYE, EAR AND HEART,

Specially treated by

M. HILTON WILLIAMS, M. D.,

M. C. P. S. O.

GRADUATE OF VICTORIA COLLEGE, TORONTO, ONTARIO.

Member of the College of Physicians and Surgeons of Ontario; for three years Associate Physician of the Chicago and Cincinnati Throat and Lung Institutes; for fifteen years and still proprietor of the London Throat and Lung Institute; also Licentiate Physician in and for the State of Michigan, and for several years Proprietor of the Ontario Pulmonary Institute and Health Resort at Riverside, Cal. Over 50,000 cases treated by us during the past nineteen years.

CHRONIC BRONCHITIS.

Bronchitis is an inflammation of the mucous membrane of the bronchial tubes, and is one of the most common of the pulmonary affections. Chronic bronchitis more often appears later in life. When a cold settles on the lungs the diseases either ends in bronchitis or pneumonia. If it ends in bronchitis it usually passes off with a cold on the chest, and still the patient does not feel entirely well. He feels tired and languid, and is incapable of taking his usual amount of exercise, and experiences a shortness of breath, with more or less tenderness in the pains of his hands. Soon after this a cough appears, accompanied by an expectoration of thick mucus, followed by a lowering of the general health and strength, and night sweats continue, when the patient assumes all the appearances of having a genuine case of consumption. But this is simply catarrh of the lungs or chronic bronchitis.

In the first stage of this disease the mucous membrane of the larger bronchial tube suffers, while in the smaller tubes and air cells of the lungs the mucous membrane becomes congested and inflamed. There are scarcely any abscesses in the lungs, but merely a wasting away of the larger bronchial tubes and death from suffocation in consequence of the bronchial tubes and air cells of the lungs. The patient dies from exhaustion and suffocation, being unable to expectorate the mucus which accumulates in the passages leading to the lungs. The sputum is often quite scanty and small in quantity, but more commonly copious, and in the morning is generally yellow. Often times streaks of blood make their appearance in the mucus, and at times there is a disagreeable fetor. Persons thus situated are liable to take cold, at which time the mucus becomes more copious and frothy, and it is not commonly the case that the patient dies in one of these attacks.

Bronchial hemorrhage (from humor, to be moist,) is so called from the profuse quantity of watery secretion which comes from the air passages of the lungs. At times it becomes quite rapy, like the white of an egg. This form of disease usually attacks old people.

Dry Bronchitis—This disease, the very opposite of the above, is a very common affection of very many people who regard themselves quite healthy are to-day under its influence, and are slowly but surely becoming the victims of this wretched disease. This is the most insidious of all pulmonary diseases. There may at first be a slight, hacking cough, and an expectoration of a bluish-white mucus. And herein lies the danger. This mucus, inhabiting the air cells of the lungs, being difficult to raise, after a time becomes solidified, permanently obstructing portions of the lungs, causing shortness of breath and a feeling of oppression on the chest, particularly after meals or on slight exertion. After a time the cough becomes more severe and comes on in paroxysms, and as the shortness of breath increases, it almost assumes the character of asthma. The mucous membrane also becomes more and more thickened, which arises from the frequent fresh colds, and the partial if not complete ruin or wreck of the terrible changes that have taken place, and the inevitable results that are to follow, viz: "A slow and certain death." And yet all the above diseases are quite curable if taken in time.

I have seen so many of these cases cured by inhalations that I do not consider any case hopeless until the disease has advanced to the chest and that both lungs are seriously involved, and even then our only hope is in the inhalations, which aids us in dissolving the mucus and in cauterizing and healing the ulcers, with nothing else can do with the same success.

CONSULTATION FREE.—Those who desire to consult with me in regard to their cases had better call at the office for consultation and examination, but if impossible to do so, may write for a copy of my Medical Treatise, containing a list of questions. Address

M. HILTON WILLIAMS, M. D.,

The Times.

Office—Temple, Main and New High.

THE Russo-English war aspect is still threatening. Russia is advancing and England remains "firm."

MR. DANA, in his New York Sun, predicts that Ohio will go 40,000 Republican in October, and New York from 100,000 to 200,000 in November. And Dana is no Republican.

THE Supervisors took steps yesterday to test the bog law of 1880. They took up the case of a man who refused to abate his white scale, and appointed a Commissioner who is to do the job for him of *et ornia!* Let us spray!

CHICAGO sets up the breezy claim of 700,000 population, and serves notice on Philadelphia that five years more will see Chicago a city of 1,000,000. The Quaker metropolis is tilting up its broadbrim, scratching its dazed head, and thinking about it.

PRINCESS BEATRICE'S wedding cake is becoming an issue in European politics. It is likewise growing in volume and weight. The first official announcement declared it would be a solidified nightmare weighing 120 pounds. Now its avoirdupois has been increased to 250, and the prospects for royal indigestion are brilliant.

DON'T try to call on the President of the United States either on Tuesday, Thursday, or Saturday. Those are the days that he is "not at home" to voters and common people, but is engaged in the work of "restoring the era of Jeffersonian simplicity." Great is humbug, and the Democratic "reign of sense" is its prophet.

SECOND COMPTROLLER MAYNARD has decided that the State of Georgia must pay her delinquent war tax of 1861 before she can draw her Revolutionary (1776) bounty from the Government. A Democratic administration that has the back-bone to make a Southern State pay her war tax may get itself disliked by the Solid South, but will incur the gratitude and respect of the country at large.

THE Montreal Witness: "A new company is being started in this city entitled 'The American Clean Towel Company.' For 30 cents, payable weekly, they furnish every morning a clean towel of their own, delivered to any part of the city." This is a mean, mendacious slur on American printing-office towels, which can stand alone without any aid from foreign intermeddlers.

AN attempt to sell an American reprint of the famous Pall Mall Gazette exposures has met with a prompt check in Chicago. A boy who cried the papers was fined $100, but the sentence was temporarily suspended and a warrant issued for the publisher. The matter of reform, of course, has no bearing in a republication of the Gazette in this country. There is no high moral ozone to be offered.

THE holding of a State Fruit Growers' Convention in Los Angeles, announced for the third week in November next, is a fitting recognition of the leading industry of Southern California. We hope to see the convention well attended by horticulturists of this section, and no doubt it will be. Such an opportunity of obtaining enlarged ideas and practical advice on horticultural subjects is rarely offered. Many of the most eminent horticulturists of the State will be present.

IT is reported that Private Secretary Lamont, who seems to consider himself a member of the Cabinet, and a "bigger man" than some of the others, was so disrespectful to the State of Delaware as to refer to Secretary Bayard as "the Delaware peach." This was highly improper in Daniel. Such things have a tendency to create a regular monkey-and-parrot time in the happy family, and cause heart-burnings in the breast of Delaware.

A VERY beautiful story, that bears the trade mark of one Mailhatton, comes from South America, to the effect that silver mines of fabulous wealth have been discovered in Patagonia; that ten men shoveled up a brig load of nearly pure silver in a few days, and reached civilization after a series of exciting adventures. The dark coloring of the gilded picture is made up with rheumatism, bloodthirsty natives and poisoned arrows.

ST. JOHN received, last November, in Ohio, 11,260 votes, the Republican majority being 31,802. The wild talk of the "Prohibition party surging to the front" made by their nominee for Governor is idle as the wind. The Prohibitionists can at the most accomplish but one thing—that is, to reinstate the Democratic party and restore the traffic in free whisky in the State. But we do not believe it can do that, much as it may try. The Republicans of the Buckeye State have got their enemies "on the hip" this year, and they are going to win a great victory at the polls.

THE MEDICAL COLLEGE.

Advantages Offered to Students—A Good Class Assured.

In the announcement of the Medical College of the University of Southern California, the following excellent summary appears:

The advantages offered to students by this College are many. Among them may be mentioned:

First: A climate embracing the cool, bracing air of the Minnesota summer with the mildness of the Florida winter, and as a consequence one in which the student of the most delicate constitution may pursue his studies without interruption throughout the year.

Second. Southern California is becoming more and more with each year a sanitarium for the United States, and the constant influx of invalids offers to the student the opportunity to become practically familiar with the classes of disease, which, if he remains to practice his profession in the western portion of the continent, he will be daily called upon to treat. He has also the opportunity to watch and study the effects of climate upon that class of diseases.

Third. Southern California, as practically headquarters for Arizona and the mining territory adjacent, becomes with each year more and more a centering point for the sick of those territories who leave their homes for medical treatment.

Fourth. Los Angeles, as the center of a network of converging railroads, is easy of access, and offers all the social and intellectual advantages which belong to centers of population and trade.

The Dean, Dr. J. P. Widney, has already received applications sufficient to insure a good class for the first term, which will open the second Wednesday in October. The College Free Dispensary, on Aliso street, that was opened under Dr. Nadeau's management July 1st, is doing a good work in alleviating the sufferings of our destitute sick.

MUTTERINGS,

Which Undoubtedly Indicate Coming War.

RUSSIA HOLDING THE AFGHANISTAN FORT

While England Gives Notice that Russia Must n't Do So Any More—A Russo-French Opinion.

Associated Press Dispatches to The Times.

LONDON, July 16.—The British government has notified Russia that any increase in the Russian forces in the direction of Zulfikar will be regarded as an unfriendly act.

THE RUSSIANS OCCUPYING.

TEHERAN, July 16.—The Russians have permanently occupied three positions on the Persian territory, lying between Sarakhs and Pul-i-Khatun.

A RUSSIAN EXPLANATION.

Robert Bourke, Under Secretary for Foreign Affairs, stated in the Commons this afternoon that the Government had made representations to Russia in regard to the recent flogging by Russian officials under General Komaroff's command of the British Consul's clerk. Russia in answer, Mr. Bourke said, had promised to make inquiry into the affair and General Komaroff had explained, that, at the time the man was whipped, the Russians were unaware that he was a clerk in the British Consul's service, but supposed that he was a suspicious character.

A RUSSO-FRENCH VIEW.

VIENNA, July 16.—The Politische Correspondenz publishes a semi-official dispatch from St. Petersburg to-day on the Central Asia question, which says that Russia counts with certainty on the help of France in any contest which the Czar may have with England in Asia. The article declares that France will be compelled to establish a protectorate over Tonquin, and the English in India will then be between two fires. England's interest is to avoid any policy likely to lead to a Franco-Russian alliance. This is a set-off to the increasing friendliness between Germany and England.

A PANIC ON THE BOURSE.

PARIS, July 16.—There is a panic on the Bourse to-day, and a heavy fall has occurred in the prices of most securities, owing to reports that a crisis between Russia and England was imminent. It is said that Russia is negotiating a war loan. The absence of official news from Afghanistan is considered ominous. The Temps says that officers of the Russian army now on furlough have been ordered to rejoin their regiments at once.

A SERIOUS ASPECT.

LONDON, July 16.—The Daily Telegraph says that negotiations between England and Russia regarding the Afghan frontier question have become serious. Russia protesting new claims and refusing to yield to Lord Salisbury, whose tone, although studiously friendly, is firm. The Standard, in commenting upon the same subject, declares that England will never condone a second edition of the Penjdeh outrage.

THE STANDARD'S VIEWS.

The Standard, in an editorial on the reported advance of Russian troops to Zulfikar Pass, says: Although more reassuring news was received late yesterday from Colonel Ridgeway, chief of the British Afghan Boundary Commission, news from other sources regarding Russian movements is of the gravest and threatening character. The only redeeming feature of the intelligence from Afghanistan, says the Standard, was that the Afghans have attached themselves more firmly than ever to our side.

THE TELEGRAPH'S VIEW OF THE SITUATION.

This morning's Telegraph, in its article on Afghan news, says: The objection of the Ameer of Afghanistan to Russia's claim to a position practically commanding Zulfikar Pass is supported by Salisbury. Lord Salisbury's reluctance to consent to Russia's offer to visit the question in dispute to a joint commission is owing to his belief that such a course would be resented and would only delay a settlement of matters. The Times' editorial says that all the powers with the exception of Russia have given their assent to the issue of the Egyptian loan. Russia's silence, the Times says, increases the apprehension in regard to the Afghan situation.

Dynamite at Denver.

DENVER, Col., July 16.—This forenoon as a passenger train was being made up in the Denver and Rio Grande yards, an empty car ran over a package of dynamite, which exploded with great force, wrecking the car and slightly injuring a switchman. It is believed that the dynamite was intended for the regular passenger train due to leave in a few minutes. The Denver and Rio Grande officials say they believe it is the work of strikers. Pieces of iron from the wreck were thrown three blocks, but fortunately did no damage. The car which exploded the dynamite was completely demolished, the wheels being wrenched off and broken in a dozen places. The second and third coaches in the train were blown from the track and badly damaged. It is said that the unexpected arrival of an express coach took the empty train over the track upon which the explosive had been placed, otherwise the regular train, containing a large excursion party from St. John's Cathedral, would have been first to pass over the track.

Some Los Angeles Railroad Directors.

SAN FRANCISCO, July 16.—The election of officers of the Los Angeles and San Diego Railroad Company resulted in the re-election of the old officers and directors. The Los Angeles and California Railroad Company elected the following officers: President, Chas. F. Crocker; Vice President, Timothy Hopkins; Secretary and Treasurer, F. S. Douty; Directors, Chas. F. Crocker, Timothy Hopkins, F. S. Douty, W. A. Bowers, Chas. Crocker and W. V. Huntington.

Fell From a Scaffold.

SAN FRANCISCO, July 16.—John Dostios, while engaged on the building of Hobbs, Wall & Co., Main street, near Market, attempted to pass from the scaffolding on which he was to a window-sill a little above him. He grasped the window-casing on each side, and the paint being still fresh, his hands slipped, and he fell backward to the stone sidewalk, sixty feet below. He struck on his head, and death was instantaneous. He was an Englishman, 50 years of age, and leaves a wife and no children.

A Double Tragedy.

SACRAMENTO, Cal., July 16.—A horrible tragedy near Davisville in just reported. Tuesday night Juan Lopez, a laborer on the ranch of G. Pena, found the rigid form of his dead wife in a field near his house. Four bullet holes were in her head and her left arm had been severed by an ax. Lopez, a neighbor, found some distance away the warm body of an old fellow laborer named Ramon with a bullet hole in his temple. It is believed he killed the woman and himself.

California Wines Discussed.

NEW YORK, July 16.—California wines are more frequently and favorably discussed in leading Eastern journals this year than ever before. The Tribune, referring to the growth of the demand for them, mentions one dealer who says he has eight centers of business in this city. He says California wines are improving each year. He claims to have sold one-third more this year than last, principally family trade.

Believe that El Mahdi is Dead.

CAIRO, July 16.—Arabs of the upper class believe that El Mahdi is dead. Zubehr Bey with the garrison has arrived at Senaar. The faminish Kordofan has become terrible and has extended to Khartoum. The hostile Arabs will not advance to Dongola for several months.

Amazo-German Customs.

BERLIN, July 16.—Prince Bismarck is soon to have a conference at Salzburg with Count Kalnoky, Austrian Minister of Foreign Affairs, relative to the vexed question of Austro-German customs. There is a very bitter feeling in Austria in consequence of the recent increase of import duties by Germany.

Ex-Mayor Bryant Examined.

SAN FRANCISCO, July 16.—The examination of ex-Mayor A. J. Bryant on a charge of threatening the life of Coroner O'Donnell was held in the Police Court to-day. After the examination of several witnesses the charge was dismissed.

Anti-Chinese Canadians.

TORONTO, July 16.—At a public meeting last night, the Mayor presiding, resolutions were passed that the further admission of Chinese into Canada should be rigidly restricted, if not totally prohibited.

SCOTCHED SIN.

A Striking Exemplification of the Gazette's Charges—The Reform.

LONDON, July 16.—The Pall Mall Gazette has issued in a single edition the full text of all its revelations. The edition is having an enormous sale, and the proceeds are to be devoted to defraying the expenses of the commission which is examining data upon which the Gazette's articles are based. The examination was yesterday confined to sifting the evidence gathered by the reporters in support of statements that among the criminal establishments purveying to vice in London was a procuration firm, Mesdames X. and Z., whose business consisted in supplying customers all over Europe with young female children, furnished by reputable physicians to be innocent. The persons engaged in the inquiry say they will not speak upon the subject for publication until the Commission of Inquiry finishes its work, which will require another week.

One of the commissioners of the Gazette reports to that paper to-day the following facts, the truth of which he declares to be incontestable: "In order to show the Mansion House Committee that the business exposed by the Gazette was still carried on as badly as ever, notwithstanding the revelations, the reporter offered to procure from the establishment of X. and Z. as many certified girls as the committee might name, delivered anywhere to their order. There being some hesitation about the acceptance of this proposition, the reporter, while the committee was still in session, went to the procuress and ordered a pretty girl 14 years of age, certified by a physician to be good, to be delivered to his order, as agent for a gentleman of sixty. The madame accepted the order, and in a short time produced the girl, duly certified to be a virgin. The reporter investigated the child's history, and ascertained that her father is dead and her mother is a poor working woman. Having completed the purchase of the girl, the reporter hastened to arrange for her delivery anywhere and to say person designated by the commission. No member of the commission would consent to receive the girl. The reporter thereupon arranged for her delivery to-night and hurried back to the Mansion House, having completed the entire transaction during the single sitting of the commission. This morning the reporter received a confidential note from Madame Z. appointing a retired place to meet the girl to-night.

HOLDS TO THE LETTERS.

Mrs. Booth positively declines to make public the contents of the letters which she announced at the Princess Hall conference that she had received from Salisbury and Gladstone in approval of the work of rescuing girls from the purlieus of the iniquity exposed by the Pall Mall Gazette. She says she will read the letters at the women's meeting in Exeter Hall this afternoon. Mrs. Booth says she also has a letter from the Queen, written three weeks ago, and in which Her Majesty expressed sympathy with the work of the Salvation Army in procuring young girls. This letter will also be read at the meeting to-day.

THE LAST LETTER OF THE QUEEN.

At the Exeter Hall meeting to-day General Booth read a letter written by Mrs. Booth to the Queen, and the reply to the same from the Dowager of Roxbury, who had been asked by the Queen to acknowledge Mrs. Booth's letter. The Dowager said the Queen fully sympathized with Mrs. Booth on the painful subject of perils to which young girls are exposed, and had already communicated thereon with a lady closely connected with the government, to whom Mrs. Booth's letter would be immediately forwarded.

FINED FOR SELLING THE GAZETTE IN CHICAGO.

CHICAGO, July 16.—Justice Foote this afternoon fined a youth named George Chinn $100 and costs for selling the Gazette upon the streets an American reprint of the Pall Mall Gazette's London exposures. The fine was, however, suspended, the boy apparently having had no intention of infringing upon any law. A warrant was issued for the publisher, and the police promise to have him brought into court to-morrow.

VIRGINIA CONVENTION.

John S. Wise Nominated for Governor.

RICHMOND, Va., July 16.—The Republican State Convention this morning adopted resolutions of sympathy for Gen. Grant, and ordered them telegraphed to him.

Nomination of candidates was then proceeded with. An hour and a half was occupied in the nomination of John S. Wise and Attorney-General Frank S. Blair for Governor.

At 1 p. m. the roll of counties was called and at its conclusion, 2:45 a. m., Wise had received over 650 votes. Before the vote was announced, the name of Blair was withdrawn, and, upon his authority, the nomination of Wise was made unanimous amid unbounded enthusiasm. Wise was immediately brought to the front, and briefly acknowledged the honor bestowed upon him. He looked upon the position for which he had been named as one of responsible duties as well as of great responsibilities, and he, with his party, were going in with their might to win.

FRIDAY, JULY 17, 1885.

Summer Outings.

As the heat of summer has overtaken us, and the discomforts of town life are a matter of enforced consideration, the question of how to be more comfortable is one that is naturally a subject of agitation and discussion. The tendency in California towards fashionable watering places and crowded resorts has fortunately not become so great as in the older communities of the country. To make one's self fashionably uncomfortable, by submitting to all sorts of inconveniences for the sake of being considered able to do as the rest of the great world does, has not become a fixed habit with the wealthier classes of California towns and cities. We have advantages of climate here such as few sections can claim, and a summer out of doors has but slight drawbacks. Health and pleasure may be pursued together, and the best kind of recreation be found in the cañons and mountain regions of the State. It is a wholesome way for the man of business to spend his vacation, to take his family, pack his tents and fishing tackle, his hunting equipments and commissary stores and set out for some cañon or mountain region where he can drink in the invigorating tonic of fresh air, and throw off for a little while the artificial wants of social and business life and the yoke of civilization. It is not time thrown away or money expended to no purpose. It is the best investment the tired and overtaxed man of business can make. It does us good to get down to the very heart of nature now and then in more ways than one. It takes a good deal of our sordid selfishness from us, and makes us appreciate the fact that there is much in the world that is attractive beyond the counter and the money till.

Santa Monica and Long Beach are growing in favor every year with those of our people who are fond of the beach, and they will grow in desirability as improvements are made. But we are not confined to these. Every cañon among our mountains sends out its invitation to our city folk to come out and be comfortable till the heat of the summer is spent. It would be a good thing if our business men would heed this invitation and take a few weeks' rest. Take your wives and children along with you. It won't add to your expenses very much, but it will give you all a rest and fresh strength to battle with the cares and perplexities incident to daily life.

A Cyclone Rod—Why Not?

Among last week's telegraphic reports of casualties was one of a cloudburst in Texas. The engineer of a railroad train saw a swirling column of water approaching the track ahead of him, and he immediately reversed his engine to back out of harm's way. When the waterspout neared the railroad track, however, its forward course was diverted, and it followed the backing train. Having advanced to a point opposite the train, the column burst.

From the phenomenon thus circumstantially reported natural philosophers ought to be able to deduce a theory.

A waterspout is the same in principle as a cyclone. One originates on the land and gathers up in its revolving column trees, houses, fences, people—anything that comes in its way. The other is born upon the water and raises a column of water which it swirls along for a destroying besom. Sometimes a waterspout sweeps from the place of its origin over the land, and plays fantastic tricks, such as that reported from Texas. The breaking of such a waterspout is usually denominated a cloudburst. The mountain cañons of California are sometimes deluged in this manner.

The moving force of the cyclone and the waterspout is conceded to be electricity. How this intangible power of the middle air comes into existence; how it is set in motion; how it is directed and how dissipated are questions which remain unexplained. But a great volume of evidence collated on this subject by scientists goes to prove the electric theory beyond a doubt. The late Prof. Tice, of St. Louis, promulgated in his annual pamphlets, which became meteorologically famous, some valuable data in support of this hypothesis.

Taking the cloud-burst in Texas as an example, and considering it in the light of the electric theory, it is easy to see how the waterspout in question may have been negatively influenced, and consequently warded off by the railroad track, and how it might have been attracted by the retreating engine, with its mass of iron, steel and brass.

Will not some scientific genius soon immortalize himself by inventing a cyclone rod, which shall catch upon its spear-point the roaring whirlwind and dispel it as the lightning bolt is now caught and carried harmlessly into the ground? It is quite within the bounds of possibility.

In Kansas, Missouri, Iowa, Ohio, and other interior States which have been visited of late years by cyclones, people have generally established places of refuge to which they can fly for safety on the appearance of this modern destroyer. In the cities, the populace usually take to their cellars. In the country districts, they have built underground caverns or dug-outs, detached from any building, for the same purpose. But while they fly from the electric giant and hide themselves for safety, they are also getting points about him, and some day they will grasp the shears of science and clip his hair.

AWAY DOWN EAST.

A Pleasant Summer Jaunt from Michigan to Maine,

WITH RANDOM NOTES BY THE WAY.

Steaming Down the St. Lawrence—Among the Veterans—Portland and Old Orchard Beach.

[Special Correspondence of the TIMES.]

FISK HOTEL, OLD ORCHARD BEACH, Me., June 28.—Bidding our friends in Lansing good-bye, we were off for Detroit on the Michigan Central, passing over a section of country of about one hundred miles of Michigan's best farming land. But few manufactories are seen, and no more evidence is wanted in favor of encouraging manufactures than to note the difference in the same State between the towns with and without them.

The most of this route has been familiar with me since it was an unbroken wilderness. I have been over it many a time when it took five and ten days, and camped with the Indians. Once in Detroit we were waylaid by friends and captured by the G. A. R., and made willing prisoners to go with them on their grand excursion to Portland. To do this we had to accept the hospitality of friends in Detroit for two or three days, which we enjoyed to the fullest extent, for Detroit, like Chicago, was washed and dressed in its very best attire, for June is the one lovely month of the twelve in all these northern cities. An hour's drive through Elmwood Cemetery shows it to have kept pace with the living city both in splendor and numbers. Here are marked the resting-places of the noted and unnoted, with the massive polished granite and marble and the painted board. Among the most noted is that of General Cass.

Detroit is, and will always continue to be, one of the largest manufacturing cities of the West (or, what would be more appropriate now, of the interior). It has a large railroad and shipping facilities, and is surrounded by the raw material and fuel on all sides. We were shown through the chemical works of Parke, Davis & Co., said to be the largest of its kind in the world, and if one were to judge by the barrels of pills and cascara and the ponderous machinery for making ointments, he would think they were luxuries instead of medicines.

About five car-loads of the G. A. R. of Michigan are at this hotel, Michigan's Governor, General Alger, and General Black, being among the number. They all got together at Port Huron and came over the Grand Trunk Railroad in palace cars to Kingston, where we all had the privilege of taking a steamer down the St. Lawrence, the most grand and thrilling trip to be found on the list of the tourist.

I will not attempt a description of this enchanting trip through the islands and over the lake, for I should fail to do it anything like justice. The water power of these falls created by the locks to pass up the shipping is immense and some immensely large factories have been built on the Canada side. Eighteen years ago we went down the rapids and the same identical old Frenchman was taken on board above the falls and was at the wheel and steered us through. At the during point there seems to be a space but little wider than the steamer for it to pass through. A few feet either way would result in a wreck. Passing under the famous Victoria bridge we landed safely at one of our sleepers which we had so suddenly left in the morning. Two hours time was allowed us here to see the city, which we improved in driving up the mountain, where is obtained a grand view of the whole city and country. Nearly all the hacks are one-horse concerns, even to carry four or six persons. Seven o'clock the next morning found us at the White mountains, where we enjoyed a good breakfast and a fine view of the mountains.

At 1 p.m. we arrived in Portland, and at 2 p.m. we were all quartered here in a large new hotel, our company being the first to dedicate it. It stands almost in the surf of the Atlantic. Two weeks ago the waves of the Pacific, at Santa Monica, rolled over us from the west; to-day, on the Atlantic, they come from the east. So soon has the trip from ocean to ocean been made. There are a number of fine hotels and numerous cottages here, showing it to be a great resort, but it is a little too early in the season yet, up here in this northern country.

Portland is a substantial old city, which has the appearance of having been built a number of years ago under a contract, and there has been no further use for improvements since.

The G. A. R. have now voted to hold their next meeting in California, and when I thanked the Michigan Grand Commander for the courtesies shown us, and invited him to come and see us, he assured us they should do so and spend a month.

We leave here to-morrow for New York via Boston and Albany, by steamer and rail. M. S. BAKER.

ORANGE.

THE NEW TRAIN—GRAPE PRICES—PERSONAL NOTES.

[Correspondence of the TIMES.]

ORANGE, July 16.—Weather rather warm for this valley for two or three days past, but a good breeze from the ocean makes it all right.

Our people are very much pleased over the fact that there are now two trains each day.

Ladies who can their own fruit and make jelly for family use, are very busy in that department.

A large part of the grape crop in this vicinity has already been bought up at prices ranging from $18 to $26 per ton. Buyers take the crop as it stands on the vines.

The McPherson brothers, who have a large concrete packing house, are putting an addition of ninety feet more to the main building. This new part is concrete also.

The lunch table and ice cream stand, Saturday, the 11th, was quite a success. Receipts over $80; net proceeds $68.

Mr. and Mrs. Harry Snyder started East Monday. They will probably be absent some months.

The water company has just put in 225 feet of cement ditch near the Santiago creek where the banks were poor and loss often occurred from breaks and seepage. A.

The A. & P. Extension.

[San Bernardino Times, July 14.]

Work on the California Southern railroad, between this point and Waterman, is being pushed with an energy that speaks well for those in charge. Chief Engineer Ferris has just returned from a trip over the road. He says that rapid progress is being made in the construction of the road. Track is now laid to a point near the Willows, about sixteen miles out from Waterman on the Mojave division. On this end of the road the construction trains run up the Cajon Pass to a point about fourteen miles from the town of San Bernardino. This leaves a gap of some fifty miles in the middle to be completed. M. G. Wheeler, Assistant Engineer, was in town to-day, and says work is progressing on the iron bridge crossing the Mojave river, two miles above Oro Grande. This bridge, when finished, will be one of the finest structures of the kind on the coast. Too much credit cannot be given Chief Engineer Ferris and his assistants for the manner in which they laid out the work, and those who have executed the same.

Are You Going East?

It will pay you to call on Warner Bros. & Crosby, 302 North Main street, for low rates, choice company and pleasant trip. Next party leave for the East July 30.

Sister Marie, St. Vincent's Infant Asylum, Baltimore, Maryland, states that St. Jacob's Oil has been used there repeatedly for rheumatism and pains caused by bruises and accidents, and that it always cured.

LAND APPLICATIONS.

Some Official Hints from the Surveyor-General of the State.

A circular has been issued by H. L. Willey, Surveyor-General, as follows:

SACRAMENTO, July 1, 1885.

The following is a copy of an Act of the Legislature passed at the last session:

3498. All applications, under whatsoever Act, filed in the office of the Surveyor-General, must be retained ninety days before approval, and must be approved (when there is no conflict) by the Surveyor General, at the expiration of six months, subject, however, to the provisions of Sections 3406 and 3407 of this Code, and all unapproved applications, which have been on file over six months, wherein the approval has not been demanded, and wherein the contest has not been referred to court, or a demand made for an order of reference, as provided in Section 3414 of the Political Code, shall be null and void.

Section 2. This act shall take effect on the 1st day of August, 1885, and the Surveyor-General shall give notice to each applicant to be affected thereby, by sending said applicant, or his attorney, a copy of this act.

So far as possible, copies of the said act have been sent out from this office to the parties interested; but from the manner in which the records have been kept it is impossible for me to know the address of a large proportion of those who have filed applications to land.

A much better manner of giving notice would have been for the Legislature to have provided for the publication thereof in several newspapers, and to have appropriated the money to pay for such publication, but there are no funds available now for that purpose. I have, however, thought best to send a copy of the Act to every newspaper in the State, hoping that publishers might feel disposed to call attention thereto as a matter of possible interest to some of their readers. Respectfully,

H. L. WILLEY, Surveyor-General.

Electric, Medicated and Sulphur Baths.

Dr. E. Robbins' celebrated electric and sulphur baths are now open for the public. Prices have been reduced to $1 or six for $5. These baths are excellent for cleansing purposes and curing colds, rheumatism, general debility and paralysis. Persons attended to by one of their own sex. Office corner First and Spring streets. Entrance on First street.

***

If You Are Going East

Be sure to go with Mathes. He goes on his next trip July 22. This is the best opportunity offered to persons wishing to go with a pleasant party at lowest rates over the shortest, quickest and best route. Refer to all who have ever traveled with us.

People vs. O. Harvey: Assault. Continued until Wednesday, July 29th.
People vs. Wm. Justice: Rape. Discharged.

FINANCE AND TRADE.

California Grain Surplus—Crop of 1884.

San Francisco Bulletin, July 15.]

A few weeks ago some of our contemporaries figured out a surplus of 500,000 tons of 1884 wheat in the State for July 1, 1885. One of these authorities gave the available surplus for export May 21st at 400,000 tons. On the same day, as near as we could figure out, the surplus was only 265,384 tons. Our figures were based on the actual returns of stock by the Produce Exchange of January 1, 1885, exports to May 21st and consumption to June 30th. Allowing for small loss necessarily overlooked on the 1st of January, we stated that the available surplus for export May 21st was near 300,000 tons. We stated at that time that in May we shipped the equivalent of 17,200 tons of wheat, and in the month of June the exports were 2,400 tons. Deducting these quantities from our estimate of 300,000 tons on May 21st, we have a stock for July 1st of 248,900 tons. The stock as officially reported by the Produce Exchange for July 1, 1885, was as follows:

Total, July 1, crop of 1884, tons ..269,145
Four refusable to wheat 10,120

Total Produce Exchange 279,265
Total Bulletin 248,900
Total City Contemporary 500,000
Total Bradstreet's, July 1 306,900

The carry-over stock would have been much smaller if prices had been more remunerative. It is considered that we have done well to have in market so large a proportion of the crop of 1884. The carry-over stock, July 1, 1884, was a little over 30,000 tons, as follows:

Total, July 1, 1884, old crop, tons .. 32,202
Four refused to wheat 16,890

Total 50,092

Saying this as a basis, and allowing 30,000 tons for seed, feed and distilling in 1884-5, we got at the crop of 1884:

Difference in stock, tons 229,173
Consumption 1884-5 300,000

Crop of 1884, tons 1,531,073

In round numbers this is equivalent to 1,500,000 centals, or 50,000,000 bushels. If the crop of 1885 be only two-thirds as large as 1884, we shall have close on to 34,000,000 bushels to export, as much as was exported in the cereal year. There is good reason to expect better prices for the reported short crops here and abroad, but it would make a difference of $1,000,000 during the year, and that would help materially in the struggle to idle in the interior.

Stocks and Bonds.

A Skirmish in The Times.

LOS ANGELES, July 15.—Government bonds quiet and strong, especially 4s.

In the half hour after the Stock Exchange opened the reported sales were 6,000 shares, and for the first hour 1,500. Sellers. During this activity, which is more of anything that has been seen on Exchange in many months, New York shares rose from 50¢ to 80¢, and Lake Shares from 60¢ to 67¢. The highest quotations mentioned were in all cases the highest of the day. The advance was caused by the European war news contained in the morning papers and by published statements, all going to show that a movement was on foot to settle railroad troubles. After the first hour the advance was checked, and from that time until the close of the board there was a slow decline, during which, with but few exceptions, all securities were lost and remained nearly where the market closed heavy, as generally ½ to ¾ per cent. below the best quotations of the day. Final prices were generally ¼ to ½ per cent. lower than forenoon.

Money easy, 1.
Sterling, 4.85.
New York exchange, 50¢ discount.
Bankers' bills quiet, 84.86; demand, 84.88.
Foreign exchange steady; closed 50¾.

VEAL—From 7 to 10c per pound

HOGS—On foot, hard, 3½@4c per pound dressed, 6@7c

San Francisco Market Report.

SAN FRANCISCO, July 15.

FLOUR—We quote: Best city extra $4 50@4 85; medium, $3 50@4 00; shipping superfine, $2 75@3 50 ₱ bbl.

MILL FEED—There is no movement in local circles, and quotations are nominal at $1 40 ₱ ctl for the best shipping parcels. The English market was reported sixpence lower this morning, in spite of warlike rumors.

BARLEY—So long as receipts do not become burdensome, it is likely that values will be fairly sustained. Heavy supplies or moderate pressure to sell would probably result in a lowering of prices to a greater or lesser extent. Choice Feed sells at 97½c, and this seems to be the top of the market at the moment. Brewing is unchanged at a range of 81 @90 ₱ ctl.

CORN—Demand very light. We quote: Large Yellow, $1 @1 02½; Small Yellow, $1 @1 02½; Large White, $1 @1 02½; Small White, $1 15@1 20 ₱ ctl.

HOPS—Distant markets are reported as dull as our own, with values declining. Quotable at 3@6c ₱ lb. according to quality.

POTATOES—We quote: Early Rose, 30@50c; Mission Garnet Chile, 50c; choice San Leandro Peerless, 60c ₱ ctl; Sweet, 3c ₱ lb.

ONIONS—Supplies are again increasing. Quotable at $1 @1 07½ ₱ ctl.

BEANS—We quote: Bayos, $2 @2 25; Butter, Sieva, $2; Pink, $1 @1 25; Red, $1 @1 25; Lima, $1 @1 65; Pea, $1 @1 75 ₱ ctl; Small White, $1 @1 50 ₱ ctl.

VEGETABLES—Receipts continue to advance. Peppers, Egg Plant and Corn are all in large supply and easy in price. We quote job lots as follows: Tomatoes, 50 to 60c ₱ box for Winters, and 75@90 ₱ box for river; Green Corn, 20@30 ₱ dozen; Egg Plant, $1 @1 25 ₱ box; Artichokes, 10@15 dozen; Cucumbers, 25@35c for Vacavilles, and 40@50 ₱ box for bay; Carrots, 25@30c ₱ box; Turnips, 50@60c ₱ ctl; Beets, 50@60c ₱ ctl; Parsnips, $1 @1 25 ₱ ctl; Garlic, 2½@3c ₱ lb; Celery, 30c ₱ dozen; Dried Peppers, 10@12c ₱ lb; Green do, 5@8c ₱ box; Green Peas, 1½@2½c ₱ lb; Marrowfat Squash, $10 @15 ₱ ton; Summer Squash, 50@60c ₱ box.

FRUIT—Peaches advanced this morning, owing to less liberal supplies. In other descriptions there were no marked changes. We quote as follows: Watermelons, $15 @20 ₱ hundred; Canteloupes, $1 @1 50 ₱ crate; Nectarines, 50@75c ₱ box; Prunes, 25@35c ₱ box; Apricots, 50@75c ₱ box; Grapes, 50@$1 00 ₱ box; Strawberries, $2 @3 00 ₱ chest; Currants, $2 50 @3 00 ₱ chest; Plums, 15@20c ₱ box; Raspberries, $1 @1 50 ₱ chest; Blackberries, $2 @2 50 ₱ chest; Apricots, 25@30c ₱ box; Peaches, 40@75c ₱ box; Figs, 10@15c ₱ basket; Pears, 40@50c ₱ box; Apples 15@25c ₱ basket, and 40@50c ₱ box; Pears, 25 to 50c ₱ basket and 75c ₱ box; Bartlett do, $1 @1 50 ₱ box, and 30@40c ₱ basket; Lemons, Sicily, $5 @6 00; do, California, $3@4 25 per box for ordinary, and $4 @5 for Sicily sized; Mexican Limes, $5 @6 00 ₱ box; Oranges, California, $1 @$1 75 ₱ box; Tahiti, $3 @3 50 ₱ box; Hawaiian Bananas, $2 @3 50 ₱ bunch; Pineapples, $5 @6 00 ₱ dozen.

DRIED FRUIT—Sun-dried Apples, 2c ₱ lb for sliced and 5c for quartered; Aldens and Plummer, 4½c; Apricots, 7c; Blackberries, 3c; Peaches, Spanish and Italian unpressed; Smyrna do, 18c for layers and 10c to 12c for kegs; Nectarines, 3c; Peaches, 12c for peeled and 5c for unpeeled; Pears, 3c for whole and 2c for sliced; Plums, 2c for pitted and 3c for sliced; Prunes, 3c for unpitted; German Prunes, 4c; Raisins, $1 @1 10 for London Layers, $1 50 loose Muscatelle, $1 50 ₱ box.

NUTS—We quote: California Almonds, 16c for soft shell and 6c for hard-shell; California Walnuts, 9c; Peanuts, 3@4c; Hickory Nuts, 7@8c; Filberts, 12c; Pecan, 10c; Brazil Nuts, 8c; Cocoanuts, $4 50@5 00 ₱ hundred.

HONEY—We quote: Comb, ——; Extracted, 5@6c.

Notice of Foreclosure Sale.

Theodore C. Lampe, plaintiff, vs.
A. M. W. de Temple, Margarita J. Temple, Walter Temple, Charles F. Temple (the last two being minors), John H. Temple, F. W. Temple, F. W. Temple as the guardian of the person and estate of said Walter Temple, and Charles F. Temple, and W. W. Jenkins as administrator of the estate of F. P. Temple, deceased, et al., defendants. } Sheriff's Sale. No. —.

Order of sale and decree of foreclosure and sale.

UNDER AND BY VIRTUE OF AN ORDER of sale and decree of foreclosure and sale, issued out of the Superior Court of the County of said Angeles, State of California, on the 6th day of June, A. D. 1885, in the above entitled action, wherein Theodore C. Lampe, the above-named plaintiff, obtained a judgment and decree of foreclosure and sale against M. W. de Temple et al., defendants, on the 6th day of June, A. D. 1885, for the sum of $2845.11, in gold coin of the United States, which said decree was on the 17th day of June, A. D. 1885, recorded in Judgment Book 2 of said Court, at page 407, I am commanded to sell all that certain lot, piece or parcel of land situate, lying and being in the County of Los Angeles, State of California, and bounded and described as follows, to-wit:

Being an undivided one-fourth of all that certain lot, piece or parcel of land situate, lying and being in the Rancho La Merced, and being and comprising the following: Beginning at the post of the northeast corner of a corral on said rancho, from which the northwest corner of the adobe house stands bearing south 39 degrees A. M. W. de Temple bears about south 61 degrees W. and distant 30 links; thence south 39 degrees 15 minutes west 29.61 chains; thence north 79 degrees 45 minutes west following the board fence which runs the north boundary of the road that leads to the bridge over the Rio Hondo, 7.09 chains through a point which is the northeast corner of the aforesaid mentioned house; thence south 10 degrees 15 minutes west, about 2.40 chains distant; thence on the same course 19.32 chains from the point of beginning to the southeast corner of the said adobe house; thence south 10 degrees 15 minutes west 29.46 chains; thence south 77 degrees 15 minutes east 12.67 chains; thence north 12 degrees 45 minutes east 4.00 chains; thence north 19 degrees 30 minutes east 11.65 chains, distance north 94 degrees east 8.84 chains; thence north 10 degrees 15 minutes east 10 chains to the point of beginning, containing fifty (50) acres of land.

Public notice is hereby given, that

On Saturday, the 18th day of July, A. D. 1885,

At 12 o'clock M., of that day, in front of the Courthouse door of the county of Los Angeles, in the city of Los Angeles, I will, in obedience to said order of sale and decree of foreclosure and sale, sell at public auction to the highest and most bidder as may be necessary to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for cash in gold coin of the United States.

Dated this 9th day of July, 1885.

BANNING COLONY.

LOCATION:
Banning, San Bernardino County, California, on
Line of Southern Pacific Railroad, 7 miles directly East of Los Angeles Railroad running directly through center of tract.

ALTITUDE:
2500 feet above sea level.

WATER:
Absolutely pure, clear and soft, and abundance of it.

ATMOSPHERE:
As near perfect as can be found on the globe.

SOIL.
Rich, deep and adapted to the production of the peach, apricot, pear, apple, nectarine, plum, prune, raspberry, blackberry, strawberry, gooseberry, cherry, and the entire grape family, both raisin and wine.

Depot, express and postoffices, store, meat market, good school, fine Union church and the best country hotel on the Pacific coast.
The above are some of the many advantages this colony possesses, and the managers are all reliable business men, and now offer land in this colony for sale to actual settlers, and to those who come to California seeking homes, as well as to those already in the State. We say come and examine land and water, and we will guarantee satisfaction. Stop at the Bryant House and ask for the manager of the Banning Land Company. For terms, etc., address,

C. W. FILKINS,
O. W. BRYANT,
Riverside, Cal.
Or,
JACOB KLINE,

AUCTION AND COMMISSION MERCHANTS.

AUCTION SALES.
By JOHN C. BELL & CO.,
REAL ESTATE & GENERAL AUCTIONEERS
Office, Room 23 Temple Block,
over the County Bank.

Fine Large
RESIDENCE LOT,
On Fort St., bet. Seventh and Eighth,
On Tuesday, July 21st, 1885,
At 2 o'Clock in the Afternoon.
To the Highest Bidder Without Reserve.
SIZE OF LOT, 50x165.

This valuable property is on the east side of the street, and adjoins that fine property of Kasper Cohn, Esq., of Newmark & Co., is one of the prettiest pieces of property in the neighborhood. For a residence site it
Is Unsurpassed.
Terms—One-third cash, balance on a long time at 7 per cent. int.
JOHN C. BELL, Auctioneer.

First Grand Auction Sale!
On the Line of the Second-st. Cable Road—80 Large, Fine and Desirable Residence Lots—By order of the
Trustees of the Ellis Villa College,
Friday, July 31st, at — o'Clock.

These lots are mostly on the line of the cable road. Large, fine and desirable lots, commanding a fine view in every direction.

Terms of the sale—¼ cash, ¼ in six months, ¼ in twelve months, ¼ in eighteen months, at 10 per cent. per annum.

Carriages on the day of sale will stand in front of our office, Temple Block, at the fountain; also at the postoffice. Will take you to the grounds free of charge. You can secure your seats by calling at the office of the auctioneer. Sale will take place on the grounds in front of the college. Reserved seats for the ladies.

For the benefit of strangers and parties at a distance, we will say the Ellis Villa College is pronounced by everybody to be one of the finest institutions in the State of California. A fine staff of resident teachers—a long-felt want supplied. A day and boarding school for misses and young ladies. Primary, preparatory and selected studies; also a full college course adapted to young ladies in Latin, French, German, Spanish and English languages. A full course to graduation in English branches. All ancient and modern languages, painting and music are extras. A thorough course in plain sewing; fancy and needle work under the best of instruction. Can be taken without interfering with the regular college courses. This college is gymnocratic—being an individual enterprise from the beginning, and is intended for a school of the highest order. The location is on the high ridge between the Rio Hondo and the ocean, 7.00 chains through a point which is the northeast corner of the aforesaid mentioned house; thence south 10 degrees 15 minutes west, about 2.40 chains distant; thence on the same course 19.32 chains from the point of beginning to the southeast corner of the said adobe house; thence south 10 degrees 15 minutes west 29.46 chains; thence south 77 degrees 15 minutes east 12.67 chains; thence north 12 degrees 45 minutes east 4.00 chains; thence north 19 degrees 30 minutes east 11.65 chains, distance north 94 degrees east 8.84 chains; thence north 10 degrees 15 minutes east 10 chains to the point of beginning, containing fifty (50) acres of land.

Public notice is hereby given, that

On Saturday, the 18th day of July, A. D. 1885,

At 12 o'clock M., of that day, in front of the Courthouse door of the county of Los Angeles, in the city of Los Angeles, I will, in obedience to said order of sale and decree of foreclosure and sale, sell at public auction to the highest and most bidder as may be necessary to satisfy said judgment, with interest and costs, etc., to the highest and best bidder, for cash in gold coin of the United States.

Dated this 9th day of July, 1885.

THE CITY.

Dots.

T. A. Templeton announces in another column that he is prepared to furnish livery rigs at all hours of the day and night at reasonable rates.

As will be seen by announcement today the fare for the round trip to Catalina Island has been reduced to $3.50. Regular trips will be made by the schooner "Emma," Tuesday of each week.

There will be no meeting of the W. C. T. U. to-day. Meetings will be held only on the second and fourth Thursdays of each month, until the middle of September Mrs. O. B. Bird, Secretary.

Collections promptly attended to by W. B. Huff & Co., 106 N. Spring street.

W. W. Wilson, architect, now at 26 South Spring street.

Rosedale Cemetery, located on West Washington street, entrance also on Pico street. Good roads to the elegant grounds. Go and see them and the magnificent Bryson monument.

See Fox's ad., top of fourth column, first page.

Under the head of "For Sale, Real Estate," Pomeroy & Mills offer seven acres of city property at a great bargain.

Money to loan, F. H. Barclay.

Boston and Chicago Magnetic and Electric Sanitarium give hot and cold magnetic baths, No. 28 South Spring street, Hammond block.

The waters of Iron Sulphur Springs are healing in their properties—excellent for rheumatism, impure blood and other ills.

BRIEFS.

Only one death in the city yesterday.

The short hot spell has lost its grip.

The Orizaba sails south to-day and north on Sunday.

The artists in brea have begun their customary annual bout with the sidewalks.

Work began yesterday on the foundations of the big addition to the Capitol Mills.

The Vienna Gardens opened as a variety theater last night, with good sized patronage.

There is talk of building a hundred thousand dollar hotel at the head of Second street.

The County Board of Education is still wrestling with the examination papers of would-be pedagogues.

Fourteen hundred and fifty-two feet of 13-inch iron pipe, for use in the Boundry water system, has been received here.

The work of enlarging Judge Cheney's court-room, as recently ordered by the Supervisors, was commenced yesterday.

Instruments were filed with the County Recorder yesterday as follows: Ten deeds, 11 mortgages, 9 satisfactions, 8 miscellaneous.

The gaping wounds in the sidewalk on the east side of Spring street, from First to Court, have been healed over by hot applications.

Marriage licenses were yesterday issued for Dr. S. H. Tolhurst and Miss Josie A. Hodgman; to E. B. Lane and Mary Allen; to Frank P. Stevenson and Annie A. Stigler.

The official list of persons fit for military duty, filed by County Assessor Bilderrain with the Supervisors, contains 8,704 names. All are between 21 and 45 years of age.

C. J. Shepherd closes his orange altogments for the season to-day. He has employed about twenty-five men for picking and packing, and has shipped altogether sixty carloads of fruit.

The Los Angeles Improvement Company (owners of the Second street cable road) are erecting a 25,000 gallon pump at reservoir No. 4, to supply their lots near the Ellis Villa College.

A claim for water in the Palomes district, on the borders of Ventura county, was filed yesterday by W. W. Jenkins and Joe Leighton. The water is to be taken from Piru creek and the Seepe.

Dr. S. H. Tolhurst and Miss Josie Hodgman were wedded yesterday at the residence of the bride's father at Brooklyn Heights. They started at once on a tour which will include San Francisco, Salt Lake City, the Yellowstone National Park, Denver, and other points.

PERSONALS.

Officer Keary is slowly recovering.

F. M. Spaulding, a large paper dealer of Boston, arrived in Los Angeles yesterday. He will remain some days.

Herbert Brown, general Manager of the Tucson Citizen, was in the city yesterday and called at the TIMES office. He returned to Tucson on the afternoon train.

Dr. Robert Hughes, proprietor of the Russian baths, is still suffering from a paralytic shock received several weeks since. His right side is powerless, and his brain troubles him much.

Justice R. Ramsey, District Attorney Gen. M. Holmes, Health Officer J. S. Baker, Constable John C. Cline, R. Miller and Wm. Banning start to-day in the latter's yacht for Catalina Island. They will return Monday.

At the St. Charles: Walter Evans, F. W. Gray, San Francisco; J. G. McCallum, Richard Mains and wife, San Bernardino; J. P. Gildersleeve, Kingston, Canada; Ford. Albuquerque; S. W. Ball, Daggett; A. B. C. Sawyer, Philadelphia; W. H. Thomas, Lamar, Mo.; E. Bedding, Fresno; C. C. Jeffries, Alpine; S. Phillips, San Pedro.

Opening of a New Lumber Yard.

A new lumber yard has just been opened in this city, at the intersection of Date, Chavez and Mission streets on the Sabichi tract. It will be known as the Oregon Lumber Co., and is a branch of the great Willamette Steam Mills Lumbering and Manufacturing Co. of Portland, Oregon. About a million feet of lumber has arrived and the yards are now open. Geo. W. Weidler, of Portland, a prominent capitalist and member of the Milling Co., is spending a few days in this city superintending the opening of the new enterprise. The local manager is Mr. J. A. Ross, also of Portland. There is a planing mill inconnection with the yards.

State Fruit Growers' Convention.

Arrangements have just been effected for the holding of a State Fruit Growers' Convention in Los Angeles, from November 16th to 21st, inclusive. The convention will be under the auspices of the State Horticultural Society. T. A. Garey has secured the use of the Grand Opera House and Opera House Hall for the occasion. It is proposed to make an exhibit of fruits in the hall.

Activity at Highland Park.

Several lots have recently been sold at Highland Park, and the agents, Bent & Rowan, report a lively demand for this desirable property. In a few weeks the tract will be but a few minutes' ride by rail from the center of town, and an acre can be purchased for one-third what an outside lot can be bought for. There are no city taxes, and the climate is delightful and healthy.

The Ball's Eye.

Following is the score of target shooting at the City Gardens by the Free and Easy Rifle Club, 200 yards offhand, July 16:

Harris	5	5	4	5	5	4	4	4	5	—45
Gauther	4	3	5	4	4	5	4	5	5	—44
Smith	4	4	3	4	4	5	4	4	4	—40
Nies	4	5	3	3	4	4	5	5	5	—39

Saturday Evening.

No sale at the Diamond House this evening, owing to the extensive preparations for the great sale on Saturday night. Catalogues will be ready at 12 m. to-day.

Santa Monica.

Santa Monica is crowded with tourists and campers at present. The bathing is fine, and hundreds enjoy it daily. There has been a great exodus to the beach during the past week.

104 YEARS OLD.

A Sonoranian Claiming to Have Been Born in 1781

IN LOS ANGELES FOR SIXTY YEARS.

Senor Ignacio Francisco de la Cruz Garcia and His Certificate of Baptism—Here When the City Had but Eleven Houses.

"Say, come here a minute," said scholarly Officer Curran, the other day, quietly buttonholing a TIMES reporter upon the street. "I want to tell you something. Did you know that there is a man down in Sonoratown who has passed the century line by four years, and is still hale and hearty? No? Well, there is. His memory is good, too, and if you get to talk with him he can give you some highly entertaining information. He lives down on Castelar street and his name is Garcia."

The reporter made four different trips to Sonoratown and hammered four times at the little board cast, a few rods back from Castelar street, between New High and Virgin streets; but each time the able-bodied centenarian was off some where pursuing business or pleasure. Yesterday afternoon the pencil-pusher tried it again. Señor Jose Maria Young kindly going along as interpreter. This time the hunt was more successful for sitting in his tiny kitchen, beside the open door, was the Señor Ignacio Francisco de la Cruz Garcia—known for short as Francisco Garcia. He is a man of probably five feet eight inches in height, and perhaps might weigh 130 pounds. His face has evidently been a handsome one, and even now is attractive. It is a Spanish face, with no trace of *peisano* blood; high, well-cut nose, faded grey eyes, well-moulded and rather refined mouth and chin, and longish gray side whiskers. His ears are noticeable, the lobes being heavy and long. His hair is short, fine and white. There is little about the face at first glance to indicate extreme age, though on a closer look the lines are seen to be many and very deeply drawn. It is in his hands and arms that age is most apparent. The fingers and wrists are attenuated to a degree; and the wrinkled skin is drawn to the bones in such hollows and lines as are seldom seen, even in very aged persons. The old man rose erect as his visitors entered, and greeted them in Spanish. He does not speak English at all. He talks freely and naturally, though at night a considerable part of his teeth remain, and in a very fair state of preservation. When questioned as to his age, he affirmed that he was 104 years old, and in support of his statement brought out the following document from an old pocket-book:

En la Santa Yglesia Parroquial de San Jose de Gracia y a los 4 dias del mes de Mayo de 1781, el M. R. Pr. Jose Pico Bautiso con licencia de mi cura Doctrinero Crisma a un niño de tres dias de nacido, a quien puso por nombre Ygnacio Francisco de la Cruz, hijo legitimo de matrimonio de Jose de Dona Maria Antonia Gonzales, Españoles; fueron su Padrinos D. Felipe Carpena y Doña Serafina Carpena; y para que conste firmo el presente certificado hoy dia, mes y año espresados.

(Firmado) Fr. JOSE PICO.

Of which a fair English translation is as follows:

In the holy parochial church of San José de Gracia, and on the 4th day of May, 1781, the Most Reverend Father Francisco José Pico baptised solemnly with the sacred oils and crism a male child, three days after birth, to whom he gave the name Ygnacio Francisco de la Cruz, lawful son of the marriage of Don José Garcia and Doña Mariana Gonzales, Spaniards. His god-parents were Don Felipe Carpena and Doña Serafina Carpena. In witness whereof I affirm the present certificate this day, month and year above mentioned.

(Signed) Fr. JOSE PICO.

The Spanish document above shown purports to be a copy of the original certificate of baptism. This would fix the date of Señor Garcia's birth at May 1, 1781.

The old man's memory and other faculties appear excellent. He says that he came from his birthplace in San José de Garcia, Sonora, to this city 60 years ago, and has lived here ever since. When he came here, he states, there were but eleven houses, all adobe, in Los Angeles. One was near the French hospital; one on the Cota property, on First street; one on Los Angeles street, where the Domingues family now own; one where the Grand Central Hotel and the Queen Chop House now stand; one on the present site of the Baker block; one on the east side of Aliso street, between Alameda and Los Angeles, now the Reyes property; one on Nigger alley, part of which still stands, and one about where the Lafayette hotel is, opposite the Plaza. The owners of these the others he could not then remember.

Señor Garcia's health is "*bastante bueno*," and he runs around at will. Officer Curran saw him carry a heavy plank on his shoulder for fifty yards the other day; and such feats are not unusual with him. He has no living relatives in this country, and lives by vending a small portion of the Lanfranco estate, which was left him for life, he having been a long-time friend of the family.

After visiting Señor Garcia, the reporter made a call on the venerable pioneer, Colonel J. J. Warner, and asked if he could give any light on the age of the supposed centenarian.

"Whether he is really 104 years old or not," said the Colonel, "I cannot say, though I have strong doubts. I have known him ever since some time in the 'Thirties—it couldn't have been earlier than 1834—and when the first Americans came to settle with him he was not an elderly man, a least not in appearance. As I remember, he seemed to be about 30. Still, I don't know. These ages are apt to grow very rapidly after a certain point, however."

Señor Young says he has known the old Spaniard for about fifteen years, and that he has always looked about as he does now, showing little, if any, increased weight of years. The old man's age is given in the Great Register of 1884 as 103 years.

The Labor Movement.

At a regular meeting of Local Assembly 3290, Carpenters, Mill-men and Wood-workers, Knights of Labor, held last night, the following resolutions were unanimously adopted:

WHEREAS, The Evening Express has attempted to reduce the wages of its printers below the schedule rate paid by the other papers in this city, therefore,

Resolved, That as Knights of Labor we cannot do less than to support our brother laborers in their manly effort to uphold the dignity of labor and resist the encroachments of unscrupulous capital. And further,

Resolved, That we condemn those whose greed of gain leads them to disregard the rights of others, and that we will strive by every honorable means to inflict upon them the punishment they deserve, and will co-operate most heartily with the printers in their effort to establish a Union paper in the interest of organized labor on the Pacific Coast. And further,

Resolved, That while we extend a helping hand, and render such aid as lies in our power to give to unemployed or needy labor, not excepting even those whom prejudice and adverse circumstances have made the instruments by which the unscrupulous seek to crush the many hopes of labor and trample poor humanity in the dust; nevertheless, we look forward to the day when prejudice and want shall give place to intelligent union and co-operation, and the consequent thrift and comfort that are the true condition and just reward of those laborers without whom thrift would be impossible and comfort unknown.

A Faithless Official.

From Evening Union (labor paper) July 16.]

The Board of Supervisors, at the Wednesday's session, passed the following resolutions:

Resolved, That it is the intention of this board to purchase from the City of Los Angeles the real property known as the Central School property, situated in the city of Los Angeles, county of Los Angeles, California, described as follows, to-wit: [Here follows technical description.] And to pay therefor the sum of $75,000, for the purpose of erecting thereon a Courthouse; and that this board will meet to consummate such purchase at its room in the Courthouse of said county on the 20th day of August, A. D. 1885, at 10 o'clock a. m., and that notice of this resolution, and our intention in this behalf, shall be published for at least three weeks prior to said 20th day of August, 1885, in the Evening Express, a newspaper of general circulation published in this county.

Careful inquiry as to selection by the Board of the only newspaper in Los Angeles that is opposed to the laboring class, in which to publish this official notice, reveals the fact that the officer responsible for the attempt to bolster up the impecunious Express is District Attorney George M. Holton. When this officer was an anxious candid te last fall for the support of the 2,500 votes of the real laboring men in this city alone, he was ready to swear allegiance to the cause of the wage-workers forever, but now he seems to be willing to sell them out for an occasional newspaper puff. How will it be when he runs for office again? Why should Messrs. Foord, Lindley, Hinds, and Rose, and most of all, Oscar Macy, who is an old typo himself, permit Holton to discriminate against the very men who elected them to their present position? It is a direct insult to every labor organization in Los Angeles county. Let there be an end of this work.

It has been but a few years since Holton himself was posing as *par excellence* a horny-handed son of toil, and running for office on a Workingmen's ticket.

GET OUT OF THAT ZANJA!

Men, Women and Children Arrested for Bathing in City Ditches.

There has been more or less complaint, of late, that persons were using the city zanjas as free swimming baths, and scandalizing passers-by by a liberal display of cuticle. Some dove in the reservoirs; others splashed about in the puddles along the line of the cable road, and the majority played fish in Zanja Madre, near the S. P. R. R. bridge, north of town. In the latter place, a good many of the bathers—mostly boys—took pains to wait till a train came along, and then ran races beside it in a shocking state of nature They have been warned time and again by the police, but paid no attention. Yesterday the police office rose in its might to vindicate the spattered law. A raid was organized, and twenty-two offenders, including men, women and children were bagged. The arrests were booked as follows: Hugh Riley, Pedro Othor, Mary O hor, Mary Dominguez, Mrs. José Othor, by Captain Benedict and Officers Smith and Weatherman, at 3:30; William Grey, John Smart, C. Jones, Henry Stover, Henry Smiley, Duke Lovell, Will Taylor, Will Kingsbury, James Smith, John Watson, by Officer Stanton, at 4:30; Harry Arthur, John Denman, Thomas McArthur, John Finley, James Denman, Henry Ensinn, Herbert King, by Officer Grubbs, at 5. Nine of the number put up $5 each, and were allowed to depart, and the Mayor soon ordered the rest released.

WEST LOS ANGELES.

Formation of an Improvement Association.

Night before last a new society was launched upon the waves of time, and he West Los Angeles Improvement Association sprang into existence. About 8 o'clock numerous citizens of that delightful suburb could have been seen wending their way to the Rosedale school house. Between sixty and seventy persons gathered there, all interested, taking an active part in banding together for the advancement and beautifying of that portion of our city. The mainspring that created the society being that they could do collectively what it would be impossible to accomplish individually, such as gaining cheap and efficient conveyance from the center of the city of Los Angeles, improving water supply, aligning streets with trees, and other items that may come before meetings.

The following officers were elected: H. Sinsabaugh, President; A. P. Hoffman, Vice President; G. T. Vail, Treasurer; C. V. Hall, Secretary. The following is the Executive Committee: B. J. Reeve, E. Simonds, R. K. McCreary, A. R. Hannah, G. T. Vail.

The association recently met to handle one thing at a time, the proposed 'bus line was brought up, and quite a respectable amount raised on the spot to start with, and the following gentlemen were appointed to solicit for additional: J. S. Dow, Geo. Williams, L. P. Bennett, W. E. Reed, C. V. Hall. The 'bus line is only started to bridge over the time when some of the street-cut of the city can find it lucrative to build; and, judging from the progress making, that day cannot be far distant. The Society adjourned to meet next Wednesday, July 23d, at same time and place.

L. A. & S. G. V. R. R.

Track-Laying and Other Work Being Rapidly Pushed.

A TIMES reporter trotted out along the San Gabriel Valley Railroad on a short passar yesterday, and found things booming. A double track has been laid from the Downey avenue bridge—where the depot will be temporarily located—to where the Southern Pacific Railroad turns around the hill. One of the tracks joins the Southern Pacific Railroad here. The other leaves the grade and plunges over the bank and across the bed of the river, a few feet south of the piers for the bridge. This is simply a temporary arrangement to get t e engines across for construction work beyond. Once across the river, the track immediately returns to the grade. Track is laid to a point some distance beyond the crossing of Wells street, some 3500 feet from the point of starting. Two engines and eight flat-cars are on the ground, and work is going on rapidly at this end of the line under the supervision of Contractor King. The big bridge across the Arroyo Seco near South Pasadena is being pushed, and is expected to be completed by a week from Monday. Thirty-five men are now working on track-laying at this end. Mud Springs, 35 miles out, is now designated as the spot to which the road will be constructed at once.

They Will All Be Thar.

We are getting ready to occupy our new basement. We have taken a three years' lease on the two rooms. We will positively take possession by August 15, and will immediately proceed to convert it into a first-class salesroom. New floors will be laid. New shelving, counters, skylight and stairways will be put in, and it will be fitted up in as complete a manner as possible. We will put in about 20 new hands to start with. Applications for positions should be handed in before August 1. We desire to close out a big line of goods at once. All our $1, 89, 79, 75, 69 and 65 cent summer silks reduced this day to 50 cents. All our $1.25 colored grosgrain silks now $1. Only 100 out of the 500 pieces of genuine double-fold Scotch ginghams left. They are going quick at 9 cents. All through the house these universal low prices prevail. All lace curtains fitted out with cornice poles free of charge. Our new poles have the patent ends, and are a very great improvement over the old style. Over one thousand dollars' worth of new advertising specialties have been ordered for the opening of our new basement. It will be a big success, and you will no doubt be in at the start. Come in to-day and get a new gingham dress and a sunbonnet to wear at our opening. J. T. SHEWARD.

Meeting of Manufacturers.

All who are interested in the growth of manufactures in Los Angeles city and county should attend the called meeting at the Board of Trade rooms this evening. Effort has been made to have every manufacturer in the county represented. The means of increasing our manufacturing industries will be discussed.

Father Upchurch.

Father Upchurch, the founder of the Ancient Order of United Workmen, will arrive in this city Thursday, August 6th. A grand reception will be tendered him by the A. O. U. W. lodges of this county.

THE JUSTICE CASE.

A White Reprobate Goes Unwhipt.

The examination of Wm. Justice, (white) on the charge of raping a fourteen-year-old colored girl, was concluded in Justice Ranney's court yesterday. The testimony of the prosecution failed to hold together in several important points. One serious lapse was in the evidence of the Stewart girl. She testified that when the outrage was committed, the Broom woman held her on a bed with both hands over her face. It was shown that, at the time and now, the Broom woman was and is suffering from a broken arm, and could not possibly have held both hands over the girl's face. Justice also proved an alabi at the time the outrage is alleged. The prosecution lacked force from the known bad character of Ellen Stewart, the girl's mother, who is generally addicted to drink. Justice himself is no angel. It was adduced that he had, on one or two occasions, offered the girl money to disbench her; that he had declared h s purpose to do it sooner or later, and that he boasted of having done it afterwards. For eight years he has had as his mistress the Broom woman, who is black as the ace of spades.

The Stewart girl appears like an innocent child. Whatever the conclusion regarding the case under consideration, nobody could look at her without feeling a sense of pity. She may have been fearfully wronged, but with such parentage and such surroundings, a life of shame seems almost her inevitable lot. There was probably some ironbound swearing on both sides of the case. It was a bad mess, make the best of it.

Deputy District Attorney Knox could ot ask the court to hold Justice on the conflicting and insufficient evidence offered, and the defendant was dismissed.

BOARD OF SUPERVISORS.

It Takes a New Tack as to Bug Warfare.

THURSDAY, July 16, '85.

Board in regular session. All present.

Ordered that the detailed semi-annual report of county expenses be published in the official paper.

The following complaint was filed:

To the Board of Supervisors of Los Angeles County, State of California: Your petitioners would respectfully represent to your honorable body that they are legal voters of the city and county of Los Angeles, State of California, and they now show to your honorable board that the orange orchard of Abram Borick, situate on Figueros street, in the city of Los Angeles, State of California, and bounded on the north by Bell, south by Moore and west by Dunnigan, is infected with disease and insects; that the same is in danger of spreading and infecting other orchards, and we therefore respectfully ask that this board will appoint a commission in accordance with the laws, and have said orchard inspected and disinfected; or, if necessary, have the trees removed therefrom.

HORACE BELL,
RICHARD DUNNIGAN,
F. H. LANKERSHIM,
J. DOWNEY HARVEY,
J. S. SANDERS.

In accordance with above application, under provisions of "An act for the better protection of fruit trees and vines," approved April 9, 1880, T. A. Garvey is hereby appointed such commissioner, and he is authorized to proceed i the discharge of the duties of commissioner in pursuance of the provisions of said act. Said orchard is hereby made a district, as provided in said act.

Long Beach Items.

Over seventy-five new buildings have been erected at Long Beach already this season and many more are contemplated.

A new Pavilion, forty-feet long, two stories high, costing about $1000, has been erected at Long Beach, on the bluff west
